Navaneeth V
Technical Lead

Summary

Technology leader with 8+ years of experience designing, building, and running backend systems at scale, primarily in AgriTech and FinTech. Hands-on with modern tech stacks, with a strong focus on system design, reliable APIs, and microservice-based platforms.

Led the architecture and hands-on development of high-throughput transaction systems, including auction engines and virtual account-based payment flows, handling complex financial and ledger operations.

Actively involved in code reviews, architectural decisions, performance tuning, and security hardening, including VAPT and compliance requirements such as STQC. Followed OWASP best practices and addressing real-world security risks in production.

Experienced in mentoring engineers, guiding teams through delivery, and taking engineering ownership end to end while staying close to the code.
Played a key role in running platforms that processed ₹357B+ in transactions for over 1.5 lakh customers.

Work History

2022-06 - Current

VP- Technical Lead
Agribazaar, Noida
- Taking engineering decisions, driving tech direction & mentoring and leading a team.
- Microservice development in PHP-Laravel, and Node.js, and scaled for performance.
- Architected a Virtual Account Management service integrated with multiple banks.
- Maintaining a real-time bidding platform, completed VAPT for security hardening.
- Architected the UPDASP GIS powered Dashboard for the U.P Government.
- Achieved STQC Compliance meeting government security and quality standards.
- Optimized API performance by switching to solr soft commits, resulted in reduced file descriptor writes, lower latency, improved memory usage & increased concurrency.

2020-12 - 2022-04

Technical Project Lead
Webandcrafts, Thrissur
- Mentored and lead a team of engineers to use best coding practices, PSR standards and reviewed their code to achieve code quality.
- Improved customer satisfaction by practicing agile development.
- Implemented Git workflows for seamless testing and deployment.
- Developed - Travel planning & Booking engine, Online community management platform, and Online Doctor & Clinic appointment web application.
- Optimized system performance through strategic caching, PageSpeed enhancements, and database optimizations, resulting in faster API response times

2020-05 - 2020-11

Development Team Lead
Lilac Infotech Pvt. Ltd, Calicut
- Led a small development team and handled day-to-day delivery across multiple client projects.
- Gathered requirements directly from clients and designed application
- architecture based on SRS documents.
- Developed - Logistics & Transport Management application, CRMS, ERPS, HRMS and Accounting & Finance.
- Tech: Laravel, MySQL, Javascript, Firebase API, JQuery, AJAX, Nginx

2018-07 - 2020-04

Project Lead
Glaubetech Inventions Pvt. Ltd., Kozhikode
- Mentored a team and gave coaching and direction.
- Acted as a lead engineer.
- Developed - Freight-Forwarding, Taxing, Finance, and Accounting web application.
- Tech: Laravel, MySQL, Javascript, Google Analytics, JQuery, AJAX, NginX, Redis.

2018-02 - 2018-05

Software Trainee
Quest Innovative Pvt. Ltd, Kozhikode
- Received training & certification in PHP, CodeIgniter, Wordpress and Zend-Framework
- Tech: PHP, MySQL, Javascript, MongoDB, ZendFramework, CodeIgniter, HTML, CSS
